## STOCK GOES SKY HIGH

Northern Pacific Sells For One Thousand Dollars Cash.

## FIGHT FOR THE ROAD

Two Syndicates Caused the Wild Advance and Not Until an Understanding Was Had Did the Market Finally Settle.

New York, May 9.—The great excitement and heavy decline in practically all securities, except the Northern Pacific, which began on the Stock Exchange Wednesday afternoon continued this morning. From the moment of the exchange's opening trade was furiously active and for the first half hour at least, apparently without support, although Northern Pacific stock rose higher and higher on the bidding of the frightened shorts. This stock rose rapidly from 170 to 190 and then almost without a pause the advance kept on till 300 was paid for 500 shares for immediate delivery. At the same time 100 shares for tomorrow delivery was sold for 230.

Trading in Northern Pacific became so wild and excited toward 11 o'clock that prices changed rapidly 25 and 50 points at a time. A sale at 530 was recorded and almost immediately another one came out at 700. This was for tomorrow's delivery and not a cash sale as some ones had been thereby indicating the belief on the part of the purchaser that the short commitments was so large that the stock to come from Europe would afford little or no relief.

At 11:15 Northern Pacific sold at \$1000 per share for cash. As fast as Northern Pacific went up other stocks were going down. At the opening, declines in New York Central, Missouri Pacific, Louisville and Atchison ranged from 2 to 5 points and it seemed for a time as if orders were being given to sell without regard to prices. This wildness was uninterrupted until about 11:40 when it seemed that for a moment at least there was a disposition to steadiness. Then all support seemed to be withdrawn, the stock market and prices began falling many points between sales.

The steamships Majestic and Servia, which arrived from Europe Wednesday evening, had in their mails large blocks of Northern Pacific common for account of arbitrage houses which were delivered to them at once. The stocks were made ready for delivery on exchange, but apparently they were not a drop in the bucket for the frantic demand for the stock not affected.

All interest centered on reports that conferences were being held to patch up the truce preliminary to a permanent basis of agreement between rival interests in Union Pacific and Northern Pacific. It was generally accepted that the Burlington deal would go through but that it would be arranged on some basis satisfactory to the Kuhn-Loeb-Harriman people. There were many conferences of various financial leaders throughout the morning. It was learned from authoritative sources that up to 11 o'clock no compromise had been agreed upon but the situation was more hopeful than it had been.

Efforts to arrange a conference between conflicting interests was resumed early this morning and while no definite steps was taken it seems certain there would be a meeting and with it peace. Kuhn, Loeb & Co., who openly declare they have a majority of Northern Pacific stock said their policy is a conciliatory one and that they had reached out with all their strength in their position and influence in an effort to protect instead of crushing.

At 11:40 a statement was made that J. P. Morgan & Co., and Kuhn, Loeb & Co., had agreed not to enforce deliveries on Northern Pacific stock today. With this announcement there was a rally in prices throughout the general list.

Just before 12 o'clock there was a rapid and sensational rise in the United States Steel Corporation to 45, Manhattan got up to 105, Southern Pacific to 86½, Amalgamated Copper to 109, Atchison preferred to 90 and others rising a point or two at a time.

After noon there seemed to be more steadiness to prices, though the market continued exceedingly erratic for some time after the upward turn had actually come in the list generally.

Professional traders who had sold recklessly on the break had to scramble to cover and heavy buying was attributed to large capitalists with available funds who saw attractive investments at the level prices that had been reached. Northern Pacific almost disappeared from the record after the announcement as to its delivery, which was the effective cause of allaying the extreme nervousness. There was a transaction of 100 shares at 500 shortly before 1 o'clock.

As high as 60 per cent was bid for

money.

At 1 o'clock the failures of W. H. Brower, 50 Broadway, and J. T. Lee, 62 Broadway, were announced on Consolidation Exchange.

The failure of A. F. Fields, also a member of Consolidated Exchange, was announced.

At 2 o'clock the semi-official announcement was made that the Gallatin National bank would lend \$18,000,000 at 6 per cent, acting for associated bankers of the city.

## SALISBURY'S ILLNESS.

Failing Health May Force Him to Give Up the Premiership.

London, May 9.—Alarming reports about Lord Salisbury's condition are prevalent. A. J. Balfour, the government leader of the house of commons and a nephew of Salisbury had a private audience with the king, which is understood to have been caused by the prime minister's failing health. There has been complete silence on the subject for three weeks, the only indication that he was not recovering being afforded by the message of his return from Beaulieu. He was to have been in London by this time but he has not yet left his Riviera residence.

The attack of influenza before Easter left him extremely enfeebled and the news from Beaulieu received in London shows that his debility is obstinately resisting all treatment and has now reached a grave point.

When asked, Lord Hugh Cecil, member of parliament, one of Lord Salisbury's sons, if it is true that the premier is seriously ill. He replied:

"I know of no ground for such a statement."

The possibility of Lord Salisbury's retirement has been freely canvassed in political circles. His death would not dissolve the ministry but would lead to its reconstruction.

It is rumored that King Edward would first ask the duke of Devonshire to take the premiership and if he should refuse then ask Mr. Balfour to accept it.

## SUBJECT TO DUTY.

Lava Rock Importers Must Pay the Government Fifty Per Cent Tax.

New York, May 9.—A decision has been made by the board of classification of the United States general appraisers upon an important, but not generally understood import. It was relative to the status of lava rock under the present tariff. The lava rock in question was hewn and squared and the collector at San Francisco assessed a duty of 50 per cent ad valorem under the provision for "other building stone, hewn." The importer, the Giant Powder company, protested, claiming a lower duty under any one of four different classifications.

The board overruled the protest and in rendering this decision reverses a previous decision of its own, which had been affirmed by the United States circuit court for the southern district of New York. General Appraiser Fischer, who wrote the opinion for the board in the present case, says that at the time the previous case was heard no evidence was submitted to show that lava rock was used for building stone anywhere in the United States. In the present case the testimony submitted proved conclusively that lava rock is now used largely for building purposes in this country.

## Chicago Journalist Dead.

Chicago, May 9.—Chas. G. Seymour, a well known Chicago newspaper man, died Wednesday night at El Paso, Tex., of consumption. The remains will be brought here for burial. When the Chicago Chronicle was established he joined the editorial staff of that paper. His brother, Horatio Seymour, is publisher of the Chronicle.

## Southern Baptist Convention.

The Baptist Young People's Union was in charge of the programme for the day. The convention will last until Monday. Fully 2000 delegates are in the city. Ex-Governor Northern of Georgia and Ex-Governor Eagle of Arkansas, the president and vice president respectively of the convention, are on hand.

## Two Children Badly Burned.

Fort Worth, Tex., May 9.—Two children, a boy and a girl, of Dan M. Morgan, traveling passenger agent of the Cotton Belt, nearly lost their lives in a fire Wednesday night and destroyed the home at Saginaw. The children were asleep in a room, and the fire enveloped them, and before they could be reached were mortally burned. The boy is most serious; not expected to live. Mr. Morgan was at the Waco reunion. Both children were brought here and placed in St. Joseph's infirmary.

## The Barcelona Riots.

Hendays, France, May 9.—Further advices from Barcelona, Spain, show more persons were killed and many

### NOTICE.

Obituaries, accounts of society events and other matters that interest only a limited number of people cannot be given space gratuitously in the columns of the Eagle. This includes obituaries written by friends of deceased, resolutions published by judges, accounts of private entertainments, suppers, etc. This is not intended to entirely bar notices of such matters. The publishers are pleased to have these matters called to their attention for appropriate notice in the paper either by personal request, note or telephone, but long articles of the class mentioned cannot be printed without charge as for advertisements or other matters of interest to only a few persons.

The exports from Galveston double in value those of San Francisco.

The New York stock market has been undergoing as wild a boom as Beaumont lands have on oil. A busted boom is probable in all such cases.

The northern papers, and those of the Pennsylvania oil region especially, blow cold on the oil boom of Texas. Texas can afford to wait, however, for eastern capital will move on Beaumont in full force in due time. Its too big and bright a light to be hidden under a bushel.

### Attention, White Teachers.

### A Beautiful Souvenir.

"Things you have seen, Things you will see and Things you have missed" is the title of a well printed folder gotten out by D. J. Price, the wide-awake general passenger agent of the I. & G. N. railroad company. It is addressed "To the Men of Greater New York, leaving Texas." In terse and expressive language, Mr. Price tells them of this wonderful land of Texas, and the folder is a beautiful and useful souvenir. It closes with the following poem:

THE LONE STAR LAND.  
There's a land where the night follows quickly the light  
Of the vanishing "God of the day;"  
Where the whippoorwill's song is not delayed long,  
Nor yet is the mocking bird's lay.  
Where the moonlight is left  
And where gleaming aloft  
The stars seem brighter I ween,  
And not quite so high  
As the gems of the sky  
That by northern eyes are seen.  
There's a land where the breeze  
From warm summer seas,  
A breath of the tropic brings;  
And besides the delight  
Which it makes of the night,  
Bears healing on its wings.  
Where is the land  
Of the "Silver strand,"  
And of hill and vale and stream,  
Where low in the sky  
And fair to the eye,  
The "Southern Cross" doth gleam?

"Tis where gladness smiles  
O'er a thousand miles  
From fertile ranch and farm,  
Of Red River south  
To the "Bravo's" mouth.  
That is kissed by the Gulf-stream  
WATKIN.

From the western side  
Of the great divide  
Between two mighty seas,  
To the forests green  
Of the dark Sabine,  
Lies this glorious land of ease.

The singing that is usually held at  
Pleasant Grove church, in Madison  
county on the second Sunday in May  
will not be held this year, and par-  
ties who may have contemplated go-  
ing are given notice. The singing is  
abandoned this year on account of  
the bad conduct of some parties heret-  
ofore, in taking whiskey on the  
ground and causing disturbance.

Sam Johnson, son of Mrs. J. R.  
Johnson, who was one of the ex-  
cursion party that left Bryan yester-  
day for Lake, fell out of a car window  
and was seriously hurt. He was  
brought back home on the noon train  
and taken home on a stretcher. The  
injury is reported to be a serious  
wrench of the back. The young man  
is about 20 years old.

Attention is called to the state-

condensed statement of the First

### THE BIG PICNIC TODAY.

The Union Sunday School pic-  
nic at Lake today will be the big-  
gest affair of the kind ever gotten  
up at Bryan. All the Sunday  
schools are united in the move,  
and six cars have been chartered,  
or as many more as may be neces-  
sary to transport the throng. Two  
marshals have been selected for  
each car to keep order, and pre-  
vent the passengers, who are  
mostly children, from getting in  
danger. Every precaution has  
been taken, and it is believed that  
the picnic will be free from cas-  
ualties, and it will certainly be or-  
derly and helpful to all, and a day  
of great enjoyment and pleasure.

The Third regiment band will  
be there and entertain the throng  
with their best selections. There  
will be frolicking and fun for all,  
and may the day be as full of in-  
nocent pleasure as its dawning is  
bright and beautiful with sun-  
shine.

### QUESTION ANSWERED.

Yes, August Flower still has the  
largest sale of any medicine in the  
civilized world. Your mothers' and  
grandmothers' never thought of  
using anything else for Indigestion  
or Billiousness. Doctors were  
scarce, and they seldom heard of  
Appendicitis, Nervous Prostration  
or Heart failure, etc. They used  
August Flower to clean out the sys-  
tem and stop fermentation of undig-  
ested food, regulate the action of  
the liver, stimulate the nervous and  
organic action of the system, and  
that is all they took when feeling  
dull and bad with headaches and  
other aches. You only need a few  
doses of Green's August Flower, in  
liquid form, to make you satisfied  
there is nothing serious the matter  
with you. Get Green's Prize  
Almanac. For sale by Wilson-Jen-  
kins Drug Co.

of the matter is simply this—beef cut  
from animals over three years old is  
tough, lacks flavor, and is deficient  
in nourishing juices. We prefer to  
sell flesh of YOUNG STOCK. It is  
delicious, tender, rich and nourish-  
ing. Much cheaper, though costing  
a little more money than cuts from  
old animals. No better meat than

## ANOTHER GREAT WELL

It is on the Guffy Property Near the Lucas.

## EQUAL TO THE BEST.

When the Drill Struck the Oil Region the Fluid Shot 175 Feet High. Immense Production of the Developed Wells.

Beaumont, Tex., May 9.—Contractor W. E. Sharp brought in another gusher for the J. M. Guffy company Wednesday morning, equal to any yet produced, making the fifth producing well this company now owns in this field, with two more drilling and due to come at a not very distant date. Estimating that each of these wells will flow 50,000 barrels of oil each day, which is considered a conservative estimate, this company has a supply of crude fuel oil equal to 250,000 barrels a day, and if it could find a market for all of it at the price it is now selling some of it, 33 cents, it would have a clear income of \$85,000 every day, a money gusher almost equal in volume to one of the wells.

It is about 600 feet west of the Lucas well and just a bit below the crest of the hill known as Spindletop Heights. The drillers went ahead with the work and when everything was ready the drill was sent swiftly into the sand and the magic touch of the steel struck life into the potent fluid, which shot upward as if resenting the disturbance, and went fully 175 feet into the air. The men had everything in perfect control and after it had spouted for a few moments the well was closed. Men were put to work making connections between the new well and the storage tank. In another day the new well will be but a piece of pipe extending from the depths below to the tank built to hold the fluid several miles away.

Salt Lake City, May 9.—The will of the late George Q. Cannon is ready for probate. The will disposes of an estate approximating \$1,000,000. The estate is divided into two parts, the first part consisting of gilt-edged securities worth \$300,000. This is to remain in trust until George Q. Cannon's youngest child, now 9 years of age, attains his majority. All of the 33 children of President Cannon are given an acre of land from the Cannon farm and \$2000 in cash on attaining majority or at marriage. While polygamy was recognized by the Mormon church, Mr. Cannon had four wives. To these are willed their homes, provision also being made for their maintenance during life.

### ITALIANS MOBBED.

Cement Workers Would Not Permit Them to Take Their Places.

Iola, Kas., May 9.—Twenty-two Italian laborers who came from Kansas City to take the place of striking cement workers, were assaulted late last night by strikers and sympathizers and driven to the railroad station for deportation. Workmen from the smelters joined with the workmen from the Iola Cement plant to run the Italians out of town.

About 9 o'clock, the old workmen, augmented by the men from the smelters, surrounded the little camp of tents on the creek bank near the factory and demanded that the men come out. The Italians answered by firing several shots and the crowd outside immediately replied. The Iola men had several wounded and one Italian was shot in the back. The Italians broke from the tent without hats or coats and took to the woods, but were quickly captured. One was clubbed from a tree where he had crawled for safety and fell in the water, whence he floundered out on the other side only to be taken back again. When the whole crowd was captured they were lined up and marched to the Santa Fe station, where they were held until the northbound passenger train arrived, when it is intended to put them aboard by force and ship them out.

A majority of the audience was composed of ladies mostly clad in mauve-colored costumes, but many were dressed in white. Brilliant scattered groups of army and navy uniforms gave color to the scene.
